### ***Drawings***

The drawings are objected to under 37 CFR 1.84(h)(5) because Figures 16b, 17b show(s) modified forms of construction in the same view.

The drawings are objected to because the cross-sectioned figures, i.e., Fig. 15; 16a,b; 17a,b; 18a,b; 19a,b do not illustrate proper cross-hatching. Figures 1-14 do not provide clarity with respect to understanding the claimed invention.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 9, there is no antecedent basis for “show” and in line 10, there is no antecedent basis for “tubular”.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 14-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Mackay et al. (6655459).

Art Unit: 3672

Mackay et al. disclose a well completion method comprising; running in a tubular 101 having a shoe 110; providing a sleeve 131 to cover a recess in the shoe; creating a sealed annular space 132 around the recess with the sleeve; providing loosely-packed sand 122 in the space; cementing the tubular (col. 5, lines 28-59); removing the sleeve (Fig. 4) to expose the recess; drilling out the sleeve (col. 5, lines 43-44); inserting a tubular string 200 after removing the sleeve; expanding the string in the recess (Fig. 4); and providing a drift diameter for the string after expansion as least as large as the shoe drift diameter outside the recess.

### ***Response to Arguments***

Applicant's arguments, see page 7, filed 8 June 2006, with respect to the rejection of claims 1-4, 7-9, 11, and 12 under 35 U.S.C. 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new rejection is made. The examiner did not prosecute claim 14 as an independent claim in the previous Office action and apologizes for this oversight.

### ***Allowable Subject Matter***

Claims 1-12 and 17-20 are allowed.
